

Tennis game - The winning volley

Category(s):	attack, risk taking

Hi

This game is one of my favorite games at the moment. I love it because it's a game that encourages attacking and volleying, and therefore risk-taking, but it's a game where if you do it wrong and you're not careful enough in our risk-taking we expose ourselves and we lose big...

This is a 10-point match:

- We engage in a journey
- return without attacking then the point I begin.
- You win the point then you score 1 point
- If you win the point with a winning move while you score 1 point and your opponent returns to Zero (ah yes that's stupid)
- If you win the point with a winning volley then you score 4 points and your opponent returns to Zero (so this encourages you to volley...)

But be careful you expose yourself to a passing therefore a winning shot...
You will see this game is still super fun!! Test it!
